# Healthcare, **connected** around you.

Building a simpler and more connected healthcare  
experience for individuals and families.

# Healthcare is still too fragmented.

Families often need to coordinate multiple healthcare providers, different communication channels and separate processes just to manage everyday care.

**The services exist. The coordination between them is often missing.**

**CAPZUL is building the coordination layer around the patient and their family.**

Elderly parents

Recurring healthcare needs

Families living apart

Remote caregivers

# A connected healthcare platform.

CAPZUL brings everyday healthcare needs together through one connected experience built around the individual and family.

01

## Medicines

Everyday access and recurring medicine needs.

02

## Lab tests

Diagnostics and home sample collection.

03

## Doctors

Healthcare consultation access.

04

## Home care

Healthcare support at home.

05

## Ambulance

Patient transport and healthcare mobility.

06

## Care plans

Ongoing healthcare coordination.

**One platform. Multiple healthcare needs. Better connected care.**

# Beyond delivery. Building continuity of care.

For people managing regular medicines, healthcare should not restart from zero every month. CAPZUL is building a simpler experience around recurring medicine needs, family coordination and long-term healthcare routines.

**“Healthcare  
should not  
restart from zero  
every month.”**

**01**

## Regular needs

Support for recurring medicine requirements.

**02**

## Repeat access

Making routine reordering simpler over time.

**03**

## Family coordination

Helping families stay involved in recurring healthcare needs.

**04**

## Continuity

Building a more organised long-term healthcare experience.

# Diagnostics, closer to home.

CAPZUL is building a simpler way for individuals and families to access and coordinate diagnostic services through trusted healthcare partners.

01

**Discover**

Find the diagnostic service you need.

02

**Schedule**

Choose a convenient collection option.

03

**Collect**

Sample collection coordinated at home where applicable.

04

**Receive**

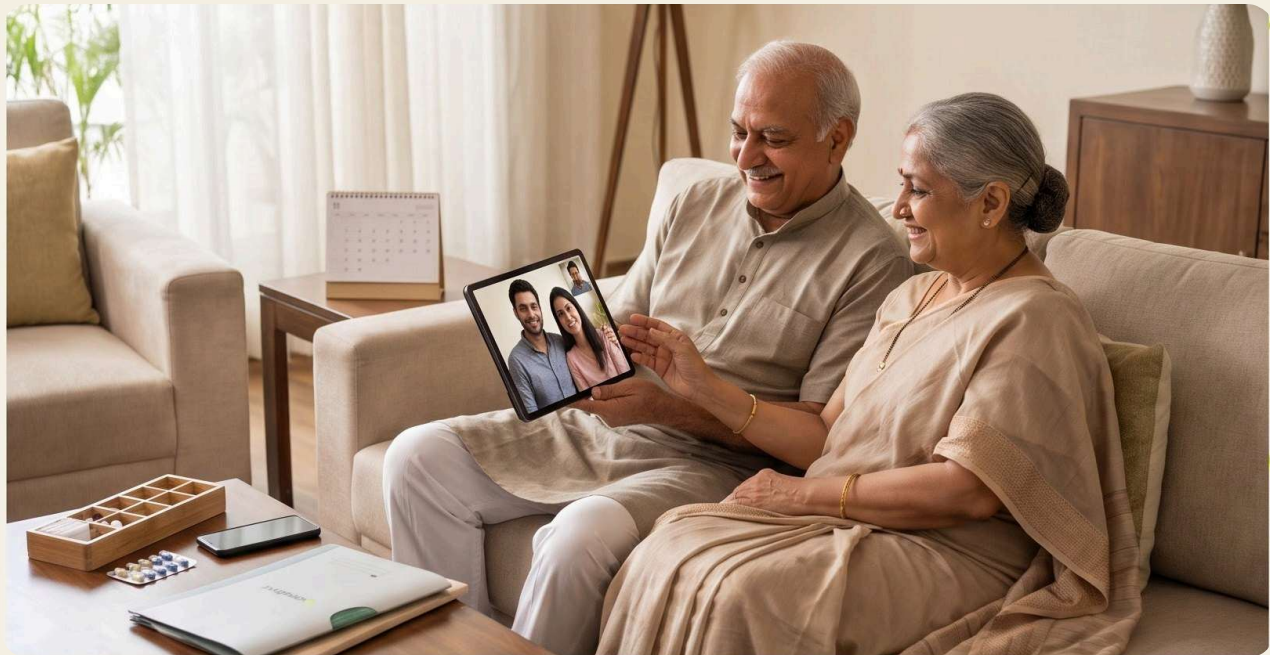

Access reports and updates through the appropriate healthcare provider.

## Less travel. Less coordination. A simpler diagnostic journey.

From routine testing to broader health profiles, CAPZUL aims to make diagnostic access easier to navigate.

# Care that stays close, even when you cannot.

Families do not always live in the same city, but healthcare still needs to stay connected. CAPZUL is building a local healthcare coordination layer for families managing the recurring needs of parents and loved ones from near or far.

## 01 Medicine coordination

Support around recurring medicine needs.

## 02 Diagnostic access

Helping coordinate testing requirements.

## 03 Home healthcare

Access to relevant care support at home.

## 04 Patient mobility

Support around healthcare transportation needs.

## 05 Ongoing care

Making recurring healthcare easier to organise.

## 06 Family profiles

Keeping healthcare organised around each family member.

## You may be miles away. Their care can still stay close.

Built for families who want confidence that their parents' everyday healthcare needs are being looked after locally.

# Helping people reach the care they need.

CAPZUL is building patient transport and healthcare mobility support for individuals and families across Tricity. The goal is to make healthcare movement easier to coordinate as part of the wider CAPZUL care experience.

01

## Patient transport

Supporting movement between home and healthcare destinations.

02

## Local access

Built around healthcare needs within Tricity.

03

## Care coordination

Connecting mobility with the wider healthcare journey.

04

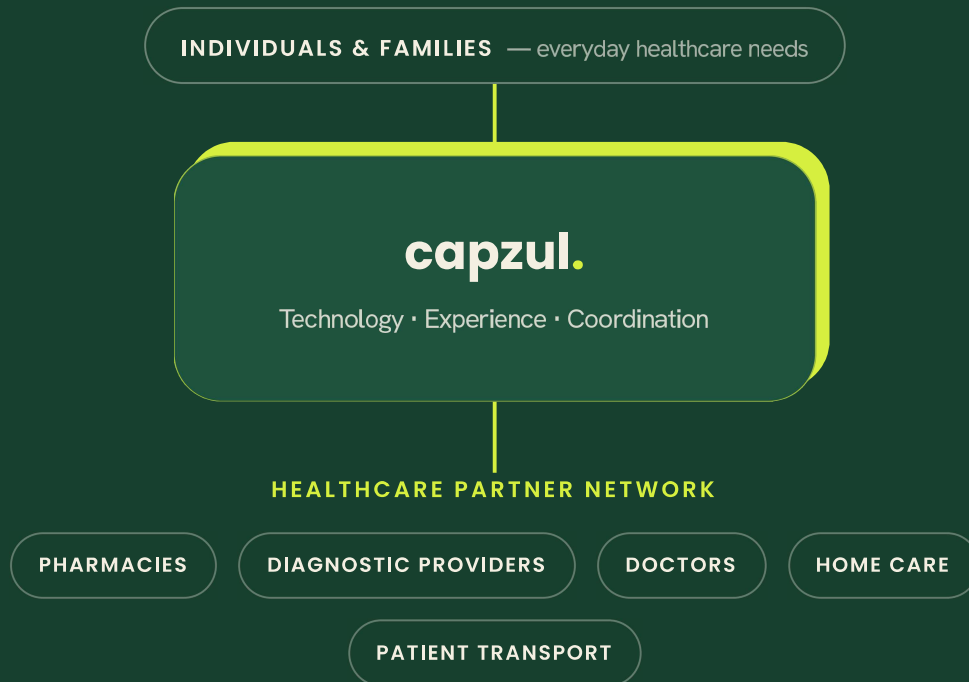

## Family support

Helping families organise healthcare transportation when required.

## Healthcare access also means being able to get there.

# One coordination layer. Multiple healthcare connections.

CAPZUL brings technology, customer experience and healthcare coordination together around individuals and families.

CAPZUL is building the **coordination layer** between families and the healthcare services they rely on.

We are not trying to replace the healthcare ecosystem. We are helping it work better **together** around the patient.

# Built around real healthcare journeys.

CAPZUL is designed around the everyday needs of individuals, families and people managing recurring healthcare responsibilities.

## 01 Individuals

Everyday healthcare access made easier to navigate.

## 02 Families

Helping families manage different healthcare needs through one connected experience.

## 03 Older adults

Support around recurring healthcare needs and everyday care routines.

## 04 Remote caregivers

Helping family members stay connected to the healthcare needs of parents from another city or country.

## 05 Recurring care users

A more organised experience for people who regularly interact with healthcare services.

## 06 Healthcare partners

Connecting trusted healthcare providers with individuals and families through a coordinated local ecosystem.

## Different people. Different needs. One connected healthcare experience.

CAPZUL is being built around the person, not around a single healthcare transaction.

# A healthcare experience families can rely on.

CAPZUL aims to make healthcare easier to access, easier to coordinate and easier for families to manage. We are building a connected healthcare ecosystem where technology, local healthcare partnerships and family-focused coordination work together around the needs of individuals and families.

01

## Start locally

Understand the healthcare needs of the communities we serve.

02

## Build trust

Create reliable experiences around everyday care.

03

## Connect care

Bring different healthcare services into a more coordinated journey.

04

## Grow responsibly

Expand while protecting quality, trust and continuity.

## One platform. One family. **Connected** care.
